EyeDetect® v4 Station and Software

The EyeDetect Station is a combination of computer hardware and software.

Hardware Components

- **Dell Latitude 3440:** 13th Gen Intel Core i5-1335U (10 cores, 4.6 GHz Turbo), 8GB RAM, 256 SSD, 14" FHD Monitor (1920x1080), Windows 11, FHD camera, and portable aluminum stand.
- **Tobii 5L eye tracker:** high-definition, infrared optical scanner; 60 Hz
- **Chin Rest:** keeps the examinee's head steady and at optimal distance from the screen.
- **Wireless mouse**
- **Headphones**
- **Power cable** (not shown) and eye tracker cable
- **Backpack or optional Pelican case** (extra cost)
- **Shipping weight**: briefcase/suitcase - 13 lbs. (5.9 kgs) / Pelican - 18 lbs. (8.2 kgs)
- **Exterior dimensions**: shipping box 16" x 12" x 6" (40.6cm x 30.5cm x 15.2cm) Pelican 13.8" x 22" x 9" (35.1cm x 55.6cm x 22.9cm)
- **Suggested Retail Price**: US$4,800

Software
The following software programs are included:

- **EyeDetect Software** – software pre-installed on the station used for test administration. Eye measurements and test responses are temporarily encrypted and stored on the computer. When the Station is synchronized with the web, all data are uploaded for scoring.

- **EyeDetect Admin** – software pre-installed on the station used to configure the station to record tests and data for specific accounts (sub accounts).

- **EyeDetect Manager** – software than can be used by a test administrator to monitor up to three EyeDetect stations running examinations simultaneously; can be installed on any Windows device.

- **Dashboard** – a web-based dashboard to see and review test results, to run reports and to manage test licenses, users and sub accounts.
